## A proven STAINLESS STEEL CLEANER AND POLISH

A trusted solution for professionals and everyday people to clean, polish and protect compatible stainless steel, chrome, aluminum and brass surfaces.

## WHY USE SHEILA SHINE?

Whether you're a boat dealer, handle maintenance for a hospital or shopping mall, operate a motel or bank, or you're a homeowner, you know the importance of first impressions. And nothing says clean, shiny, and sleek the way **SHEILA SHINE** does.

Our three-in-one product cleans, polishes and protects with a simple one-step application.

For more than **65 years**, professionals and everyday people have been choosing **SHEILA SHINE** to polish and showcase not only their stainless steel, but also their chrome, aluminum, brass and more.

### CLEANS

Removes dirt and grime, eliminates streaking, and resists fingerprints and everyday marks.

### POLISHES

Restores a brilliant shine and enhances the natural beauty of metal surfaces.

### PROTECTS

Helps maintain a cleaner appearance longer by resisting fingerprints and liquid penetration.

## IDEAL FOR USE ON COMPATIBLE METAL SURFACES

STAINLESS STEEL

CHROME

ALUMINUM

BRASS

## INDUSTRIES THAT USE SHEILA SHINE

Trusted across industries to clean, polish and maintain a bright, professional finish.

### Restaurants & Commercial Kitchens

Commercial kitchens depend on durable, professional-looking stainless steel, but equipment exteriors can quickly show grease, fingerprints and everyday marks. Sheila Shine works as a stainless steel cleaner and polish for compatible range-hood exteriors, appliance fronts, splashbacks, service counters and other non-food-contact surfaces.

### Hotels & Hospitality Facilities

Reflective elevator doors, handrails, entrance fittings and luggage carts make fingerprints and smudges easy for guests to notice. Sheila Shine gives hospitality teams a practical stainless steel cleaner and polisher that helps restore brightness and resist fingerprints between regular cleaning rounds.

### Janitorial & Commercial Cleaning

Commercial cleaners maintain many different metal fixtures across offices, schools, hotels and public facilities, often within a single shift. Sheila Shine offers a dependable way to clean and polish compatible stainless steel, chrome, aluminum and brass while helping reduce streaks and fingerprints.

### Facility & Building Management

High-touch elevator doors, kick plates, railings and entrance hardware need regular attention to remain presentable. This practical stainless steel cleaner and polish helps facility teams remove everyday grime and maintain a consistently cared-for appearance.

### Marine, Yacht & Marina Maintenance

Marine rails, fittings and hardware combine strength with a high-quality finish but face regular handling, moisture and outdoor conditions. Sheila Shine helps clean, polish and protect compatible stainless steel, chrome, aluminum and brass surfaces around boats, yachts and marina facilities.

## INDUSTRIES THAT USE SHEILA SHINE

Trusted across industries to clean, polish and maintain a bright, professional finish.

### Healthcare & Medical Facilities

Durable stainless steel architectural features can collect fingerprints and visible marks throughout a busy healthcare facility. Sheila Shine helps maintain approved non-patient-contact metal surfaces. It is a cleaner and polish—not a sanitizer or disinfectant—and must be used under facility procedures.

### Schools, Universities & Institutions

Busy corridors, cafeterias and common spaces can leave metal doors, rails, kick plates and equipment exteriors looking marked. Sheila Shine gives custodial teams an efficient stainless steel cleaner and polisher for compatible surfaces across larger institutional buildings and campuses.

### Manufacturing & Industrial Facilities

Oils, handling marks and industrial grime can dull compatible metal equipment exteriors, work areas and facility fixtures. Sheila Shine helps remove greasy film from non-operational surfaces before leaving a polished protective finish and a more professional appearance.

### Retail, Offices & Public Spaces

Modern entrances, displays and shared spaces often use stainless steel and chrome, where fingerprints can undermine a clean first impression. Sheila Shine helps maintain compatible elevator doors, fixtures, railings, kick plates and entrance hardware with a bright, polished finish.

### Distributors, Resellers & Supply Companies

Widespread commercial use of stainless steel creates recurring demand for effective cleaning and polishing products. Sheila Shine gives supply businesses a trusted option for commercial customers, with aerosol, liquid, case and bulk formats for different purchasing needs.

## REAL PEOPLE. REAL RESULTS.

Here is what our customers have to say about Sheila Shine.

"I was going to get my golf clubs professionally restored. However, every place I went wanted way too much money. A buddy of mine told me to try Sheila Shine. Not only did Sheila Shine restore my clubs back to a showroom shine, it saved me a lot of money."

— Robert Kocur, Philadelphia

"Sheila Shine has cut down the time it takes me to clean my home. It is so easy to use, I don't mind cleaning the entire metal in my house."

— Rita Lucas, Florida

"I have used a lot of professional cleaners in my career as a chef. None do what Sheila Shine can do in the kitchen."

— Anthony Zopazzia,  
Executive Chef

"Sheila Shine is a great tool to use on any construction site. It provides a great finished product that our customers love!"

— AJoe Gribben,  
Contractor

"I have a private practice. I use Sheila Shine to clean all the metal inside my office. Works great!"

— Dr. Louis Pennal, MD
